BULLETIN ADS ARE DEPENDABLE

EDITION

By Advertising a merchant cultivates his field instead of merely scratching it. His returns do not come from the sparse and accidental growth, but from the thorough tilling of the soil and an expert knowledge in making one crop succeed another. Every time he advertises in the EVENING BULLETIN he is planting the seed and watering the soil, and the growth is QUICK and the HARVEST CERTAIN.

MANA PASSENGERS ON THE MONGOLIA

Steamer Brings Rev. J. L. Barton En Route To Yokohama

The Mongolia came into the Hackfeld dock this afternoon at 2 o'clock after a rather rough passage from San Francisco. As Purser Rennie expressed it, "She moved around some on the way over." This naturally means that there was pretty heavy weather, as it takes a very heavy weather to stir the Mongolia from her usual steadiness.

The Mongolia has a new captain in the person of R. H. Hathaway, a new man on the Pacific. Capt. Hathaway is a rather young man in comparison to the other captains of the Pacific Mail boats, but is said to be one of the best officers in the American merchant service. He came to the Pacific Mail from the Ward line on the Atlantic, where he enjoyed a reputation of the best.

The wharf was crowded with ministers and other church people waiting to greet Rev. J. L. Barton, the secretary of the American Board of Foreign Missions who is on the way to Yokohama. As soon as he came off the ship he was taken in charge by P. C. Jones who placed him in a wagonette drawn by four horses and took him to his home in Nuuanu Valley, where he will be entertained until the Mongolia leaves tomorrow noon.

Among others who were on the Mongolia was A. G. M. Robertson, returning from a trip to the coast.

Mrs. S. M. Ballou and Misses Florence and Charlotte Ballou, returned, leaving Attorney S. M. Ballou in Washington, where he has some cases to fight before the Supreme Court of the United States.

Mrs. John Ena, widow of the late John Ena, returned with Mrs. Ena and Misses Mabel and Clarice Ena.

Dr. Samuel J. Call, who will take the place of Dr. Robinson on the Manning, was on board.

Mr. James Dole returned from the Coast with his bride.

Mr. and Mrs. Albert Waterhouse were among the passengers.

The Mongolia brought 291 sacks of mail for this city and a few packages of freight. She has 310 Orientals on board, bound for their homes. Two hundred and fifty of these are Chinese and the rest Japanese.

The officers of the Mongolia were shocked to hear of the death of Capt. Senbury, who was a great favorite with all. They say that they knew when they left that he had little chance of living. He was walking along a street in one of the small cities near San Francisco about two weeks ago and fell into a cellar which had been left without covering. From the injuries received in this way his death resulted.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day. For \$1 a year.

FORMER WAITER IS NOW COAL MAGNATE

Has Salvaged 600 Tons Of Fuel Jettisoned From Sheridan

It's an ill wind that blows no one's good and the stranding of the transport Sheridan at Barber's Point has turned out to be a windfall for a young hawke named Hammond, and the natives living in that section. In order to get the Sheridan off it was necessary to jettison the coal which was on board the transport and 1700 tons of her fuel were thrown over the side and then washed on the beach.

Hammond, who but a short time ago was working as a waiter at Scottie's, saw a chance to make some money, so he rented the land on which the coal had been washed and made an agreement by which he should have the right to salvage the coal without any interference. He then got the natives together and went to work. Now there is in the vicinity 650 tons of first class fuel coal piled on the beach and Hammond is in the city today making preparations to have it brought here in scows. He should be able to get from \$4 to \$5 per ton for the coal and will clear a handsome little sum as the result of his forethought and hard work.

BANK PRESIDENT FROM BOISE CITY

Among the passengers to arrive today on the Mongolia was H. B. Eastman, the president of the Boise City National Bank, accompanied by his family. He has come here for a vacation trip and will remain for a month or more. Mr. Eastman has been a resident of Boise for the past 40 years and was one of the original promoters and is now heavily interested in the Artesian Hot and Cold Water Company.

This company is unique as it has its sources of supply from nature and pipes both hot and cold water directly from the ground to buildings all over the city where it is used for all ordinary purposes and also for heating the buildings. Practically all the modern buildings in Boise are heated with radiators which are supplied by the hot artesian wells.

ROUGH RIDER TACTICS

Washington, Dec. 12.—President Roosevelt wants to clean out the Washington tenderloin, although it will cost \$30,000,000 to do it.

ALEC WAS ONLY ON BUSINESS IN CALIFORNIA

A. G. M. Robertson, the well known lawyer and politician, returned this afternoon in the Mongolia, his return being almost as unexpected as his sudden departure. Immediately after leaving the steamer Robertson went to his office. Here he was found, among a host of friends who had hastened there to greet him.
Regarding his trip Robertson did not have much to say. He was very pleasant, but not communicative.
"Where have you been?" he was asked.
"In San Francisco and California," he answered.
"Then you didn't go to Washington?"
"No, I did not have the time."
"What was the purpose of your trip?"
"Pleasure and business combined. Law business."
"What cases were you working on, which necessitated the trip?"
"Oh, nothing that would interest the public."
Robertson was asked whether the resignation as chairman of the Republican Central Committee, which he tendered when he left, was still to be considered effective.
He answered that it was not. It was tendered merely in case the committee should want to elect another chairman during his absence. As the committee had not wanted to do so, he did not intend to resign.

Excitement Wild in Nevada

Daily fresh fortunes are wrested from Mother Earth. Tenderfeet and inexperienced men have become millionaires overnight; a few weeks ago they labored for day's wages. YOU CAN DO THIS ALSO. The chances are better now than ever before.

Many of our island clients have reaped stupendous profits by following our advice.—In substantiation of which we reproduce the following from the SAN FRANCISCO CALL of date December 4, 1906:

"HONOLULU BUYING STOCKS
"ISLAND SPECULATORS MEET WITH SUCCESS IN NEVADA MINES."

"HONOLULU, November 26.—Interest in Nevada mining stocks has been growing rapidly for some time past. It is said that, while a large number of men are buying and have bought stocks in the various concerns in Nevada, so far there has not been a single loss recorded.

"All of the stocks in which local people invested have advanced in value. In two or three instances men in this city are said to have cleared up \$50,000, while there are a number who have made smaller amounts, but still running into the thousands."

The early youth of '07 will see more and quicker huge fortunes made than since Comstock days. This is not speculation — THE GOLD IS THERE. We are right where you need us—in San Francisco where the market for Nevada shares is made. Our fingers are constantly on the pulse of the mining stock situation, and we have accurate knowledge of the good stocks. WRITE NOW for our FREE MARKET LETTER. And when you get our tip to buy or sell, be ready to ACT. Members of the San Francisco & Tonopah Mining Exchange, Suite No. 243 Monadnock Building, San Francisco, Cal.

MAY BRING BACK GARLTON CREW

Cables May Take The Wrecked Sailors To Vancouver

The news of the running ashore of the bark Carleton on Midway, which came in by cable last night, has occasioned a good deal of talk in the city, and the details which have been received are so meager that it is difficult to know as yet just what will be done. The cables ship Restorer is due to leave for Midway on Monday and it is possible that she may take the crew, who were all saved, on board and land them in Vancouver, where she goes to dock and to have a general overhauling.

It is also possible in case that a request should be made through Washington that either the Iroquois or the Manning might be sent to Midway for this purpose. It is doubtful if there would be any chance of saving the Carleton, as she is an old wooden ship and has seen her best days. She was built by the Sewalls in Maine, in 1872 and is now the property of C. Budrow & Co., of San Francisco. She is a sister ship of the St. Francis, belonging to the same firm.

KAULUKOU MAY BE ASSISTANT SHERIFF

Spends Day In Office Learning The Ropes

Abram G. Kaulukou, who has for some time been connected with the firm of Magoon & Lightfoot, was on hand this morning in the office of Deputy Sheriff Kalakela taking lessons in the manner of filling out warrants and getting on to general routine of the office. The rumor has it that he is to be appointed Assistant Sheriff, to fill the vacancy made by Henry Vida. It is certain that some position will be tendered him by Sheriff-elect Iauka. Assistant Sheriff Henry Vida will sever his connection with the police department on January 1, as he states that he has given Sheriff Brown his resignation to take effect on that date. If he wished he might remain in his present position till noon on January 7, when the office will be turned over to the new administration. He has some plans on foot and states that he intends to remain in Honolulu for some little time, though what his plans are he refuses to announce as yet.

MANY LEGISLATORS SIGN MEMORIAL

The memorial to Congress, petitioning for the establishing of a dry dock at Honolulu, has so far been signed by the following Oahu members of the coming legislature: Senators J. M. Dowsett, J. C. Lane, E. F. Bishop, C. F. Chillingworth, Chas. J. McCarthy, Representatives W. T. Rawlins, E. W. Quinn, E. A. C. Long, A. D. Castro and John A. Hughes. Senator-elect W. O. Smith is not in town, and therefore his signature has not been secured. The Representatives from the Fifth District will sign this afternoon. The memorial is a Senator Dowsett's office for signature.

The Republican leaders, who planned the sending of the memorial to Congress, have high hopes of its success, as the measure has the support of several United States Senators and Representatives.
